ABICOR Binzel Corporation
650 Medimunne Ct. Suite 110
Frederick, MD 21703
800-542-4867
abicorusa.com

ABICOR Binzel Corporation specializes in total torch technology - global technology for the welder's world. Offering MIG, TIG, robotic, air and water-cooled torches and related accessories, plasma cutting & welding, welding chemicals and laser welding / brazing components. As a global leader and one of the U.S.A.'s largest providers, ABICOR offers customizable welding solutions and significant cost savings options for every application. Our products are available through national distribution channels for metal fabrication in industries such as automotive, shipbuilding, railroad, aircraft, off-road equipment, construction, energy and many more.

Aimtek
201 Washington St.
Auburn, MA 01501 USA
508-832-5035
<https://aimtek.com/>

Founded in 1973, Aimtek has been the professional's choice for quality products and services for 50 years. Independently owned and operated, you can be reassured that what you order, will be delivered when you ask for it. With our global exporting capabilities, you can order with great confidence from a World-Class, Value-Added Supplier and Award-Winning Small Business of the Year!

American Torch Tip
6212 29th Street East
Bradenton, FL 34203
941-753-7557
www.americantorchtip.com

American Torch Tip is the world's largest manufacturer of welding and cutting consumables, with over 16,000 parts. More than 100 competitive brands of welding torches/guns, tips, nozzles and consumables that equal or exceed OEM quality. parts for plasma, MIG, TIG, oxy-fuel, laser cutting systems and thermal spray coating equipment.

AMET Inc.
355 Dividend Drive
Rexburg, ID 83440
www.ametinc.com

AMET® is an international company with 30 years of experience developing, producing, and supporting automated welding systems. Our proven systems have been a part of manufacturing critical components for many industries throughout the world. Our focus has been to provide completely integrated welding systems, combining precision controls, process equipment, and weld fixtures, all programmed and controlled via a single controller. To achieve our desired level of integration with all the necessary process equipment, AMET® designs and produces its own control hardware and software. We introduced the use of DSP (Digital Signal Processor) technology to welding controls and continue to

utilize the latest controls technology to provide our customers with advanced, fully integrated solutions to achieve their welding requirements and project demands.

Bluco

1510 Frontenac Road, Naperville, IL 60563

800-535-0135

<https://bluco.com/>

Bluco Corp is the sole source North American supplier for Demmeler & Bluco modular fixturing systems. The modular fixturing systems offered feature highly accurate five-sided tables made of high tensile strength steel. Angles, spacer blocks, clamps, positioning, clamping bolts, and universal stops can be assembled into a ready to use welding fixture in a matter of hours. Ideal for prototypes, spares, and other high mix/low volume jobs.

BUG-O SYSTEMS

Stevensville, MI 49127
269-465-5750
www.galgage.com

G.A.L. Gage Company manufactures high-quality precision Weld Measuring Gauges for checking Weld Thickness, Butt Welds, Pits, Undercuts, and much more. We also produce the unique Gap-A-Let® Ring that can reduce fit-up time by up to 90% for socket welding.

Gasflux Company
PO Box 1170
Elyria, OH 44036
800-253-7932
www.gasflux.com

Since 1938, the Gasflux Company has promoted its specialized process of introducing a flux automatically into the flame for torch brazing. The Gasflux™ Process is designed to work with steel, copper, and brass using silver and bronze as a filler metal. The advantages are quicker brazing times and little or no post braze cleanup. The process can easily be adapted to work with most manual or automatic brazing systems. The Gasflux Company also manufactures fluxes in paste and powder forms for low, medium, and high temperature braze applications along with supplying quality braze alloys. The Gasflux Company not only sells a "flux" but promotes and supports a process which enables one to braze in a cost efficient manner.

Goss, Inc.
1511 Route 8
Glenshaw, PA 15116
412-486-6100
www.gossonline.com

Goss, Inc., has been manufacturing equipment for the welding industry for over 70 years. The product line consists of replacement welding, cutting and brazing oxy-fuel torch tips for all major brands plus a complete line of soldering and brazing torch equipment. A reputation for quality performance product and excellent service has made Goss brand name customers can depend on.
